CARLTON URBAN DISTRICT COUNCIL

Annual Report 1970

Health Department  
Council House  
Carlton Square  
Carlton  
Nottingham NG4 3DN

October 1971

TO: The Chairman and Members of the Council

Herewith the Annual Report for 1970.

It is with regret that I have to record the absence of the Medical Officer of Health through serious illness since May 1970, and his death in July 1971. It is particularly sad because this would have been his last report to you before his retirement in May 1971, and I am sure he would have had a good deal to say to you in summatting his work in this district over the last 15 years.

Dr Robinson was devoted to the population of the district, particularly to the children and his services will be sadly missed by many of them. He never failed to give help when it was needed. He was always concerned about housing in Netherfield and it was a great pleasure to him in the months before he died to see the wheels set in motion for the General Improvement area to be declared in that part of the district.

My thanks are due to him for his support and encouragement over the last four years.

The state of the public health of the area is good and conforms to the requirements of the Department of the Environment.

The estimated mid-year population is 43,030, an increase of 390 since 1969. The birth rate was 17.8 per 1,000 population and the death rate 12.3 per 1,000 population.

1970 saw the implementation of the 1969 Housing Act, as a consequence of which there has been a marked increase in

the number of houses in the area which are being improved to a reasonable standard of fitness. At the end of 1970 the machinery was set in motion for the local authority to declare a General Improvement Area in Netherfield. 255 houses in the area of Godfrey Street and Deabil Street are involved. It is to be hoped this will be followed within the next two years by a Second Area.

It is pleasing, public health wise, to at last see progress being made with regard to Netherfield - an area which for a long time has been the Cinderella of the district.

Another concern during 1970 has been the Senior Citizens of the district. Old age brings its problems of illness, infirmity, loneliness and problems with regard to suitable housing accommodation. Our elderly population is living longer and more and more people now need ground floor accommodation. This type of housing is not easy to provide in this day and age, in a built-up area and with land at a premium, but I consider there is an ever increasing need for it and of course it would release family type housing for the younger generation.

In the section on Vaccination and Immunization, German Measles Vaccination (Rubella) is recommended for the first time. The effect of this procedure should be seen in the district within the next few years as a lowering of the number of children born with congenital defects.

Lastly I would record my thanks to the Committee, to the Chief Officers of the Authority and to the staff of the Health Department for their help and co-operation during the year.

<hr/>			

Major causes of death are still Ischaemic heart disease, cancer, and cerebro-vascular disease, and indeed this is following the National trend. One of the deaths from ischaemic heart disease was in a man of 32 years of age.

The deaths from cancer have increased slowly since 1967 - this being due to an increase in the number of people over 65 years dying from cancer of the intestine. 784 people attended the prediagnostic clinic for cancer of the cervix in 1970. This clinic is held fortnightly under the auspices of the County Council. Still more members of the female population need to be persuaded to avail themselves of this service.

Deaths from other causes 3

## VACCINATION & IMMUNIZATION

Weekly sessions for Vaccination and Immunization are carried out at The Carlton County Health Clinic, 61 Burton Road, Carlton, on Thursday mornings, 9.30a.m. - 11.30a.m.

The Departmental Medical Officers of the County Council also carry out this service for Pre-School children in the Child Welfare Clinics throughout the area.

### MEASLES

715 children were vaccinated against measles - a great improvement on 1969, but many more children need to be protected before vaccination is truly effective against the disease.

### POLIOMYELITIS

786 children completed the 3 dose course of oral vaccine.  
682 children received reinforcing doses.

### DIPHTHERIA, WHOOPING COUGH and TETANUS

685 children completed a course of triple vaccine.  
754 children received reinforcing doses of vaccine.  
81 children received reinforcing doses of Tetanus vaccine.

### SMALLPOX VACCINATION

511 children were vaccinated in 1970 and 93 were re-vaccinated during the year.

### RUBELLA (GERMAN MEASLES) VACCINATION

This vaccine was introduced this year, 537 female school children in the 11-13 years age group were given the single dose injection.

When an expectant mother either develops German Measles or comes into contact with the disease during the early part of the pregnancy, there is a risk of congenital defect or deformity in the children, in the form of cardiac lesions, eye defects, ear defects and also mental subnormality.

It is hoped to prevent this by vaccinating the female population before they reach child bearing age.

This vaccination will be offered to female children entering secondary schools each year.

#### B.C.G. (TUBERCULOSIS) VACCINATION

This vaccine is offered to all children entering secondary school (i.e. at 11 years).

100 children were vaccinated in 1970. This figure is low due to the fact that the Rubella vaccinations were commenced at the beginning of the school year in September 1970 and most of the B.C.G. vaccinations were postponed to the Spring Term (i.e. 1971).

In the school year September 1970 to July 1971, 712 children were offered vaccination, of which 675 accepted. Of the 675 children Heaf Tested, 56 showed a positive reaction and as a consequence were chest x-rayed. No case of tuberculosis was found. 619 children were negative and 616 children were given B.C.G. Vaccination. (3 children were absent and will be vaccinated next year).

## SERVICES PROVIDED BY THE NOTTINGHAMSHIRE COUNTY COUNCIL

AMBULANCE SERVICE: This service can be obtained by dialling Nottingham 82603, or, in an EMERGENCY by dialling 999.

DAY NURSERY: There are 26 places in the Day Nursery under the supervision of the Matron, Miss A. Brawn.

HOME HELP SERVICE: Area Organiser - Mrs J. Hancock, Area Office, Carlton County Health Clinic, 61 Burton Road, Carlton.

### Statistics for 1970 - Carlton and Arnold.

Number of Cases served	902
Number of Home Helps employed	*127
* total equal to 72 full-time	
Number of hours afforded	125,634
Standard charge at year end 6/6d (hourly rate) (from 1.2.71 40p (8/-).	

### Analysis of cases served -

Age 65 or over	757
Under 65 - chronic sick and tuberculosis	18
Mentally disordered	8
Maternity	59
Others	60
	902

HOME LOAN SERVICE: Nursing equipment and appliances are available from the County Health Department on loan - free of charge to patients being nursed at home. Such equipment is supplied at the request of the nurses and general practitioners.

COUNTY HEALTH CLINICS - Park House, 61 Burton Road, Carlton.

<u>Ante-natal &amp; Post-natal</u>	Friday 9.30a.m. - 12 noon. Relaxation classes for expectant mothers, Tuesday morning & afternoon by appointment.
<u>Midwives</u>	Each Wednesday 2.0p.m. - 3.30p.m.

## HEALTH VISITING SERVICE

There are 5 full-time and 1 part-time Health Visitors in the area based on the County Health Clinic, 61 Burton Road, Carlton.

### Full-time

Miss J.L. Cooper  
Miss E.M. Ball  
Miss G.R. Bretland  
Miss J. Dowd  
Miss M. Garner

### Part-time

Mrs M. Lush

There are also 2 part-time clinic nurses -

Mrs M. Dickinson  
Mrs M. Sim

The Tuberculosis Health Visitor for the area is -

Mrs C.M. Brennand  
Forest-Dene  
Gregory Boulevard  
Nottingham (Telephone 77884)

TO: The Chairman and Members of the  
CARLTON URBAN DISTRICT COUNCIL

---

Mr Chairman and Gentlemen,

I have pleasure in presenting to you my twenty-fifth Annual Report, which deals with the work carried out by the Public Health Inspectors, Meat Inspector and Technical Assistants during 1970.

The Department encountered some difficulty as regards Staff during part of the year owing to the resignation of two Public Health Inspectors. Mr R. Whitehall left the service of the Council as from the 1st March 1970 and this post was not re-filled. On the 16th April 1970 Mr D.K. Fox resigned. However, Mr Whitehall applied for this appointment and commenced duty on the 10th August 1970.

It became apparent by mid-year that it would not only be impracticable with existing Staff for the Department to carry the work load imposed by Part III of the Housing Act 1969 (which deals with the rent of dwellings in good repair and provided with standard amenities) but that some routine duties would receive but scant attention. Your Council therefore appointed a Technical Assistant to help with housing duties and Mr W.E. Barnett took up his post on the 24th August 1970.

Part II of the Housing Act 1969 gives power to Local Authorities to declare areas of predominantly residential character to be General Improvement Areas. The intention of the provisions of the Act is to secure improvement not only of the houses but also the environment. It is felt that owners of property are more likely to maintain their houses after improvement if the useful life of an area is extended for many years.

Your Council will recall that five years ago the Southern part of Netherfield, namely the area beyond the Four Gates (excluding the properties then owned by British Railways), was declared an Improvement Area under Part II of the Housing Act 1964, thereby securing compulsorily the provision of standard amenities in a significant number of the houses.

Towards the end of the year a report by the Department was in preparation for consideration by the Health and Sanitary Committee with a view to the area previously mentioned being declared a General Improvement Area under the provisions of Part II of the Housing Act 1969.

Steady progress was made in the field of smoke control and confirmation of the Carlton No. 6 Smoke Control Order 1969 was received in April 1970. It will become operative on 1st July 1971.

The Council made a further Order on the 23rd December 1970, the Carlton No. 8 (Proposed) Smoke Control Order 1970. This is the first of several proposed Orders planned to join up existing areas on the Western side of the District with those located to the North East.

One hundred per cent meat inspection has been continued and this duty is carried out by Mr J. Smith the Authorised Meat Inspector, who is assisted as occasion warrants by one of the Public Health Inspectors.

There is within the District a poultry dressing station and oversight is maintained over these premises by several visits weekly.

Other duties for which the Department is responsible are dealt with under separate headings in the body of the report.

COMPLAINTS During the year 810 complaints were received, all of which were promptly investigated and dealt with as occasion demanded.

INSPECTIONS AND VISITS The total number of inspections and visits made during the year was 10,529 of which details are given in the following tables.

SUMMARY OF INSPECTIONS AND VISITS

PUBLIC HEALTH AND HOUSING ACTS

Housing (primary inspections)	477
" (secondary inspections)	779

## HOUSING

### 1. Inspection of Dwelling Houses during the year

1.	(a) Total number of dwelling houses inspected for housing defects (under Public Health or Housing Acts)	477
	(b) Number of inspections made for the purpose	779
2.	(a) Number of dwelling houses (included under sub-head (1) above) which were inspected and recorded under Housing Consolidated Regulations 1936	60
	(b) Number of inspections made for the purpose	175
3.	Number of dwelling houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation	28
4.	Number of dwelling houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for habitation	160

### 2. Remedy of defects during the year without service of Formal Notices

Number of defective houses rendered fit in consequence of informal action by the Local Authority or their Officers 188

### 3. Action under Statutory Powers during the year

1.	Proceedings under Section 9 and 16 of the Housing Act 1957	
	(a) Number of dwelling houses in respect of which notices were served requiring repairs	40
	(b) Number of dwelling houses which were rendered fit after service of formal notices	
	(i) by owners	63 *
	(ii) by Local Authority in default of the owners	2 *

\* Includes notices outstanding from 1969.

4.	<u>Proceedings under the Public Health Acts</u>	
	(a) Number of dwelling houses in respect of notices which were served requiring defects to be remedied	73
	(b) Number of dwelling houses in which defects were remedied after the service of formal notices	
	* (i) by owners	29
	(ii) by the Local Authority in default of the owners	10
5.	<u>Proceedings under Section 17 of the Housing Act 1957</u>	
	(a) Number of dwelling houses in respect of which Demolition Orders were made	20
	(b) Number of dwelling houses demolished in pursuance of Demolition Orders	11
	(c) Number of dwelling houses in respect of which Closing Orders were made	14
6.	<u>Proceedings under Section 18 of the Housing Act 1957</u>	
	(a) Number of separate tenements or underground rooms in respect of which Closing Orders were made	Nil
	(b) Number of separate tenements or underground rooms in respect of which Closing Orders were determined the tenements or rooms having been rendered so fit	Nil
	<u>Housing Act 1957 - Part IV - Abatement of Overcrowding</u>	
	(a) (i) Number of dwellings overcrowded at the end of the year	1
	(ii) Number of families dwelling therein	1
	(iii) Number of persons dwelling therein	7
	(b) Number of cases of overcrowding reported during the year	Nil

(c) (i)	Number of cases of overcrowding relieved during the year	Nil
(ii)	Number of persons concerned in such cases	Nil
(d)	Particulars of such cases in which dwelling houses have again become overcrowded after the Local Authority have taken steps for the abatement of overcrowding	Nil

\* Includes notices outstanding from 1969

#### Applications for Housing Accommodation

As at 31st December 1970 there were 1042 applications lodged with the Housing Department. As compared with the number on the 31st December 1969 there was a decrease of 103. Details are as follows.

Applications from persons residing in rooms excluding single persons over 30 years	342
Applications from single females over 30 years residing in rooms	41
Applications from single males over 30 years residing in rooms	17
Applications from persons who are tenants	237
Applications from persons who are owner/occupiers	16
Applications from persons who are residing out of the district	7
Applications for aged persons bungalows excluding single persons over 30 years residing in rooms	379
Applications for aged persons bungalows from persons who are residing out of the district	3
	1042

The houses/flats erected in the district in 1970 were:-

(i) by the Local Authority		
Permanent		54
(ii) by private enterprise		202

The houses and flats erected post-war are thus:-

(i) by the Local Authority		
Permanent		2120
Prefabricated		100
(ii) by private enterprise		4393
		6869

## HOUSING

The following 20 houses were made the subject of Demolition Orders.

Nos. 98,100,102 and 104 Carlton Hill, Carlton  
Nos. 259,261,263,265,267,269 and 271 Carlton Hill, Carlton  
No. 1 First Avenue, Carlton Hill  
Nos. 33,35,37 and 39 Foxhill Road, Carlton  
Nos. 40,42,44 and 46 Gladstone Street, Carlton

Closing Orders were made in respect of the 14 dwellings mentioned below:-

Nos. 2 and 4 Beck Street, Carlton  
Nos. 2,5,26,28,30,58,60,62,64,66,68 and 70 Manvers Street,  
Netherfield

No. 12 Manvers Street, Netherfield, as a result of action under Section 16 of the Housing Act 1957, became the subject of an undertaking by the owner to render the house so fit for human habitation and to carry out improvements.

Closing Orders were determined in respect of No. 128 Victoria Road, Netherfield, which was made fit for human habitation and Nos. 1 and 2 Podder Farm Cottages, which were converted into one house and has provided a good unit of accommodation.

## Demolition

The following 11 houses have been demolished:-

Nos. 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140 and 142  
Curzon Street, Netherfield.

## Rehousing

Six families totalling 12 persons were rehoused from houses which were the subject of Closing or Demolition Orders.

## House Purchase

As a result of action under Part II of the Housing Act 1957 and the Housing Act 1964, Part II, the Council has purchased 14 houses in Netherfield. These will be improved.

## Improvement Areas (Housing Act 1964)

During the year 21 dwellings were improved as a result of action under the provisions of Part II of the Act (Improvement Areas) and 2 as a consequence of action under Section 19.

Elsewhere in the district 84 dwellings were improved by Standard Grant aid and 15 by Improvement Grants.

## Housing Act 1969 Part III

This part of the Housing Act 1969 deals with the rent of dwellings in good repair and provided with Standard Amenities by the conversion of controlled tenancies into regulated tenancies.

Below is a summary of the work done under Part III of the Act from 1st April 1970 to 31st December 1970.

## Improvement Cases

1.	No. of applications for qualification certificates under section 44(2) under consideration at end of period	5
2.	No. of certificates of provisional approval issued	10
3.	No. of qualification certificates issued under Section 46(3)	7

Standard Amenities already provided

4.	No. of applications for qualification certificates under Section 44(1) under consideration at end of period	222
5.	No. of qualification certificates issued under Section 45(2) in respect of:-	
(1)	dwellings with rateable value of £90 or more in Greater London or of £60 or more elsewhere	12
(2)	dwellings with rateable value of £60 to less than £90 in Greater London or of £40 to less than £60 elsewhere	9
(3)	dwellings with rateable value of less than £60 in Greater London or less than £40 elsewhere	1
(4)	Qualification certificates refused	39
(5)	applications no longer effective	6

Exemption for low income tenants from Section 54

6.	No. of certificates issued under Section 55	-
----	---	---

WATER SUPPLY

The Urban District is supplied with water by the Nottingham City Water Department. The water is not plumbo-solvent and is satisfactory both in quality and quantity.

The following information has been provided by courtesy of the Water Engineer for the City of Nottingham.

"Bacteriological and chemical analyses of samples have been taken bi-monthly at each source of supply, and less detailed bacteriological examinations were made weekly. Before being put into supply all water has invariably complied with the highest standards stipulated by the Ministry of Housing and Local Government. The following lengths of water main were laid in the Carlton Urban District during 1970."

3" diameter - 588 yards  
4" diameter - 216 yards  
6" diameter - 98 yards

## Private supply

Sampling of a private supply by the Department was carried out during the year and bacteriological examination proved satisfactory. This supply was put into use by the firm concerned for the provision of water to a hot drink vending machine.

## DRAINAGE AND SEWERAGE

The following extensions to sewers were made during the year:-

Foul ..... 660 lin yards

Surface water ..... 660 lin yards

## REFUSE COLLECTION AND DISPOSAL

Refuse collection and disposal methods have remained the same other than the use of five Dennis Paxit IIa vehicles of 16/24 cubic yard capacity and two 10 cubic yard sideload vehicles. Disposal is by "controlled tipping."

The administration of the municipal dustbin scheme rests with the Council's Surveyor and such scheme operates very well.

## INSPECTION OF MEAT AND OTHER FOODS

### (a) Meat Inspection

The table below shows the number of animals slaughtered during the years 1969 and 1970 and the total expressed in terms of "cattle units."

YEAR	CATTLE EXCLUDING COWS	COWS	CALVES	SHEEP & LAMBS	PIGS	TOTAL * CATTLE UNITS
1969	2,622	1,598	362	13,926	13,401	111,341
1970	2,356	1,078	346	16,485	11,744	103,580

\* CATTLE BEAST = 10 units  
CALVES & PIGS = 3 units  
SHEEP = 2 units

The number of animals slaughtered during the year was less than in 1969 and the decrease expressed in terms of "cattle units" amounted to 6.9%.

(b) Slaughterhouses

There are three licensed slaughterhouses in the district and these provide adequate slaughtering facilities for the requirements of the area. Details of the licensed premises are given below:-

<u>Licensee</u>	<u>Location of premises</u>
1. Wm. Hickinbotham & Son Ltd.	Dunstan Street Netherfield.
2. F. Baker & Son Ltd.	Kenrick Street Netherfield.
3. A.E. Hayes	Westdale Lane Gedling.

Slaughtermen

In 1970 18 Slaughtermens' Licences were issued.

PARTICULARS OF ANIMALS SLAUGHTERED AND

## OTHER FOODS

The amounts and classes of foods (including meat at retail premises) which were examined during the year and found to be unfit for human consumption are shewn below: -

### FROZEN FOODS

Fish	107 lbs
Fruit	5½ lbs
Meat	214 lbs
Poultry	289¼ lbs
Vegetables	97½ lbs

### CANNED FOODS

Fruit juice	12 lbs
Minced meat	1 lb

### OTHER FOODS

Bacon	10¾ lbs
Blancmange Powder	42 lbs
Cakes and cake mix	5 lbs
Cooked meats	200 lbs
Fruit	8 lbs
Ice-cream	49½ lbs
Mousse - packets	20 lbs
Sausages and meat pies	65½ lbs
Trifles - packets	2 lbs

---

TOTAL            1,129 lbs

---

## SAMPLING

The following tables give particulars of samples obtained by Officers of the Nottinghamshire County Council Weights and Measures Department in the Urban District during the year and examined and/or analysed under the Food and Drugs Act 1955.

	Number of Samples			Adulterated etc. samples result of examination etc.
	Obtained	Genuine	Adulterated or sub-standard	
Apple dessert	1	1	-	-
Blood mixture	1	1	-	-

#### Miscellaneous Food and Drugs Investigations

Alleged sale of bottle of milk containing pieces of glass -

Evidence not strong enough to warrant prosecution. Brought to notice of bottlers.

Alleged sale of can of stewed steak containing gauze bandage -

Evidence not strong enough to warrant prosecution. Brought to notice of canners.

Selling apple pie contaminated with mould -

Seller prosecuted - Fined £15.00 and £5.00 costs.

Selling soft bread rolls contaminated with mould -

Bakers prosecuted - Fined £20.00 and £8.40 costs.

Selling can of tomatoes containing a caterpillar -

Imported article under warranty. Importers cautioned.

Selling packet of potato crisps containing fragment of material woven from vegetable fibre (believed to be fragment of oven cloth). -

Manufacturers cautioned.

Bacteriological examination of Milk Bottles

<u>Examined</u>	<u>Satisfactory</u>
66	66

Food Premises

The premises registered under the provisions of the Food and Drugs Act, 1955, Section 16 as at 31st December 1970, were:-

Premises used for:-

(a)	Sale of ice-cream	132
(b)	Manufacturer of ice-cream	nil
(c)	Preparation or manufacture of sausages, potted food etc.	30

The number of inspections of food premises during 1970 was 261.

Food Hygiene (General) Regulations 1960

Details of notices served etc. are given in the following table:-

	<u>REGULATION</u>	<u>SERVED</u>	<u>COMPLIED WITH</u>
5	Premises - defective condition	11	11
6	Cleanliness of equipment	7	7
8	Protection of food against contamination	4	4
14	Sanitary conveniences - cleanliness	4	4
	- lighting	1	1
	- now wash hands notice	4	4
16	Wash hand basin - to be provided	4	4
	- hot and cold water	3	3
	- nailbrushes	2	2
23	Cleanliness of food room	4	4
24	Accumulation of refuse	3	3

Food Hygiene (Markets, Stalls & Delivery Vehicles) Regulations 1966

	REGULATION	SERVED	COMPLIED WITH
13	Name & address on vehicle	2	2
18	Provide hot water, soap etc.	2	2

Prosecution

Proceedings were taken during the year against the proprietor of a food business in the District for offences under the Food Hygiene (General) Regulations 1960, as follows:-

- Regulation 5 Food business not to be carried on at insanitary premises.
- Regulation 6 Cleanliness and construction of equipment.
- Regulation 8 Food to be protected from contamination.
- Regulation 14 Sanitary convenience to be kept clean and in efficient order.
- Regulation 16 Wash-hand basins to be provided with hot and cold water supply.
- Regulation 23 Cleanliness and repair of food rooms.
- Regulation 25 Temperature at which certain foods to be kept.

The defendant was found guilty under Regulations 5,6,8,23 and 25 and was fined £25 on each count with £35 costs. Summonses in respect of the offences under Regulations 14 and 16 were dismissed.

Milk and Dairies

The number of dairies (other than dairy farms and distributors) registered with the Authority as at 31st December 1970 were:-

Dairies	1
Distributors	83

## RODENT AND PEST CONTROL

The Health Department has a whole-time employee who carries out along with general duties, those of rodent control.

A test baiting of the sewers in the district was commenced towards the end of the year and continued during the early part of 1971.

Free treatment is afforded in the case of dwelling houses, but a charge is made in respect of other premises. As ready mixed baits are now readily available little demand is made for the service from industrial or commercial undertakings.

### TYPES OF PREMISES

Local Authority	Dwelling Houses	All other premises (including business)	TOTALS
Rats	291	21	312
Mice	99	11	110
TOTALS	390	32	422

In addition 35 wasps nests and 28 other infestations of ants etc. were treated.

## OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

As at 31st December 1970 there were 195 premises registered with the Authority - 9 more than at the end of the previous year. There were 9 new registrations. Slightly less than one third of the premises registered received a general inspection.

### REGISTRATIONS AND GENERAL INSPECTIONS

Class of premises	Number of premises registered during year	Total number of registered premises at end of year	Number of registered premises receiving a general ins
Offices	5	41	9
Retail Shops	3	120	30
Wholesale shops, warehouses	-	3	1
Catering establishments open to public, canteens	1	22	12
Fuel storage depots	-	9	2
TOTALS	9	195	54

## ACCIDENTS

Four accidents were reported during the year and regrettably one was fatal. These involved 3 men and 1 woman.

The three minor accidents related to injuries to ankle or shin and there was no apparent failure on the part of the several employers.

In the case of the fatal accident the deceased was crushed between the tail board of a reversing lorry and a store-room wall. There were no witnesses and no explanation of cause of the accident. The verdict at the inquest was "Death caused accidentally by a reversing lorry."

## NOTICES SERVED AND COMPLIED WITH

OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963	NOTICES SERVED	NOTICES COMPLIED WITH
Sec. 6 Provision of heating etc.	2	2
Sec.16 Safety to floors,stairs etc.	3	3
Sec.24 First Aid Materials	1	1
Sec.50 Information to employees	1	1

## ANALYSIS OF PERSONS EMPLOYED IN REGISTERED PREMISES BY WORKPLACE

CLASS OF WORKPLACE	No. OF PERSONS EMPLOYED
Offices	144
Retail shops	413
Wholesale departments, warehouses	19
Catering establishments open to public	104
Fuel storage depots	237
Canteen	15
TOTALS	932
Total Males	513
Total Females	419

## ATMOSPHERIC POLLUTION

### (a) Measurement of Atmospheric Pollution

There are four sets of Sulphur Dioxide apparatus and smoke filters operating in the area. The location of the apparatus is shewn below:-

#### Station No. 1

Council House,  
Carlton Square, Carlton - Eight port valve machine. This station was formerly located at the Public Library, Manor Road, Carlton.

#### Station No. 2

Community Centre, Haywood Road, Mapperley.  
Eight port valve machine.

#### Station No. 3

Chandos Street Boys' Secondary Modern School,  
Netherfield.  
Standard equipment.

#### Station No. 4

This Station was discontinued during the year.  
It was sited at the British Railways Staff Association Sports Pavilion, Victoria Road, Netherfield.

#### Station No. 5

Gedling House, Wood Lane, Gedling.  
No. 5 Station was moved from the Carlton-le-Willows Technical Grammar School during the year. Eight port valve machine.

Standard equipment requires daily attention while the eight port valve machines need weekly attention only.

### (b) Domestic Smoke

The Carlton No. 6 (Proposed) Smoke Control Order 1969 was submitted to the Minister of Housing and Local Government early in the year and confirmation was received in April 1970.

It becomes operative on the 1st July 1971 instead of the 1st November 1970, the date originally programmed. The later date was substituted because the Solid Smokeless Fuels Federation was unable to guarantee an adequacy of solid fuels and requested that the operation of the Order be deferred until after the 1st April 1971.

(b) Domestic Smoke (Continued)

On the 23rd December 1970 the Council made the Carlton No. 8 (Proposed) Smoke Control Order 1970. The area to which the Order relates is 71.43 acres in extent and is bounded by Westdale Lane, Cavendish Road and the North Western sides of Belper Avenue and Baslow Avenue.

There are in the area 603 premises grouped as follows:-

Commercial	7
Privately owned dwellings	502
Local Authority dwellings	94
	<hr/>
TOTAL	603
	<hr/>

When the Order becomes operative there will be 4,822 houses subject to smoke control which is 32% of the dwellings in the area.

The situation with respect to solid smokeless fuels at the end of the year was that no complaints had been received by the Department from householders of any difficulty in obtaining supplies.

Inquiries made of the Solid Smokeless Fuels Federation in connection with the Carlton No. 8 (Proposed) Smoke Control Order 1970 in June revealed that it was anticipated that the position would be stabilised during the Winter of 1971/72 and would improve steadily from then on and that all difficulties should be eliminated before the Winter of 1972/73.

(c) Industrial Smoke

As has been the case for several years no real problem has been encountered from industrial smoke.

One contravention of the Clean Air Act 1968, Section 1, occurred (dark smoke from industrial or trade premises otherwise than from a chimney) and a warning was given.

Two notifications of proposal to instal furnaces and applications for prior approval under Section 3 of the Clean Air Act 1968, were received both of which were so approved.

LITTER ACT 1958

CIVIC AMENITIES ACT 1967

Whilst it has been necessary from time to time to remove litter deposited on the roadside verges in Arnold Lane the problem of the dumping of litter has been of less significance than for several years previously.

The number of derelict vehicles was 7 as compared with 15 in 1969. One was removed on behalf of the Council by a Waste Metal Merchant after action under the Removal and Disposal of Vehicles Regulations 1968, as also were two non runners at the request of the owners.

The remaining 4 were removed by the owners after informal action by the Department.

The removal did not involve the Council in any cost.

NOISE ABATEMENT ACT 1960

Four complaints of alleged noise nuisances were received during the year.

Two of the cases had been dealt with by the Department on previous occasions and remedial action had been taken.

The first related to amplified music from a Social Club. Numerous visits were made by the Staff of the Department and the Police. The occasions on which music was played were found to be much less. It was not considered that the noise constituted a statutory nuisance and sound meter readings confirmed this view.

In the second case (referred to in last years report) further observations and sound meter readings were taken at various times during day and night and it was considered no formal action could be justified. I would add that the firm has always been co-operative and willingly participated in site meetings between the complainants and the Staff of the Department. The noise originated from the steam raising plant of a nearby factory, but it is hoped that the problem will be completely resolved when a new boiler house is constructed and new boilers installed during 1971.

The third case related to an alleged noise nuisance which prior to the Department being called in had received the attention of several statutory undertakings and others. Despite visits in the daytime and during the night no noise was ever heard.

## NOISE ABATEMENT ACT 1960 (Continued)

In the last instance complaint was made with respect to the firm which operates and maintains specialised types of motor vehicles, some of the maintenance being carried out at night. Visits were made but no evidence of the alleged nuisance was found and the complainant was advised of the action which he could take under the Noise Abatement Act.

The firm concerned is located on an Industrial Estate but the premises are in fairly close proximity to houses. If premises from which noise is likely to arise were sited well away from dwellings, a more peaceful environment would be assured.

## FACTORIES ACT 1961

1. Inspections for purposes of provisions as to health (including inspections made by Public Health Inspectors)
